

Automotive analog camera

RT-O-CAM-RV2

The RT-O-CAM-RV2 camera is designed for direct connection to the PNM-210 product allowing applications such as rearview monitoring to be implemented.

The product is ruggedized, waterproof and has power IR-LED for night-view.

The RT-O-CAM-RV2 extends the PNM-210 device with visualization of the environment for user specific applications. This heavy-duty camera is ideal for trucks or other heavy equipment needing all round view-ability. With it's aluminum die-casting water-proof housing in durable and sophisticated design, the camera is operational under extremely low illumination.

Installation is easily achieved, the camera comes with a bracket for easy surface mounting. The camera module is connected to the PNM-210 unit with an interface cable and supply cable. The camera module sends live images and can be monitored on the PNM-210 unit display easily.

Key Features:

- Easy installation, with just two screws.
- Easy interfacing to the PNM-210 device.
- Capable of night-vision with IR LED.
- Waterproof and ruggedized design.

Technical Specification:

Camera type	Heavy-Duty Colour CCD Analog Camera		
	Minimum	Typical	Maximum
Power supply (VDC)		12 or 24 V	
System compatibility	PAL/NTSC		
External Dimensions (mm)	W 68 x H 42 x D 58	Without mounting bracket and cable	
Resolution	PAL 512(H) x 582(V)	NTSC 512(H) x 492 (V)	
Horizontal Resolution	520 TV Lines		
Lens	2,8mm F2.0 120°		
S/N Ratio	>48dB		
Connection Type	RCA or BNC		
Waterproof Rate	IP67 Vandel proof		
Operating Temperature	-20 °C ~ 70 °C (RH: 95% max.)
