Mounting Bracket
For the MX2i Series

This accessory for the RTCU MX2i series makes it easy to install it into a permanent and secure position, with only two screws.

The bracket makes sure that all of the connectors / slots on the unit are accessible without removing the bracket.
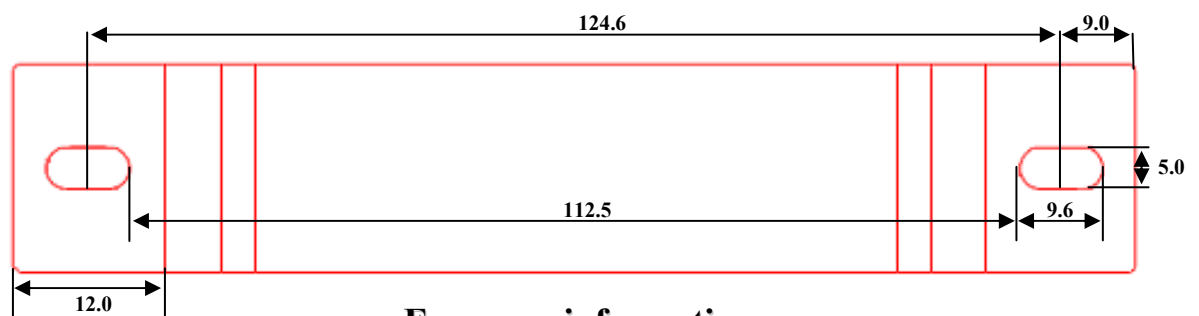

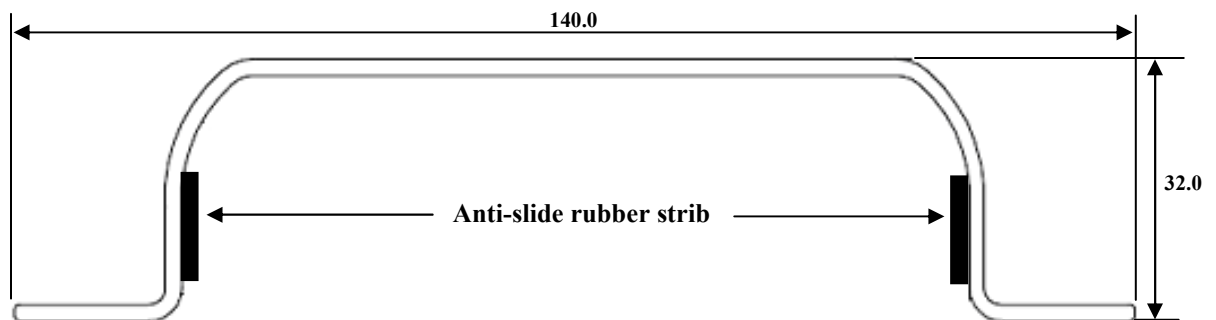

The aluminum bracket is made to fit around the MX2i profile, with only two screws the RTCU MX2i unit can be installed in any position/ location and the connectors/ SD-CARD slot and SIM slot is still accessible without use of any tools.

Anti-slide strip attached to underside of the bracket prevents that the unit slides out of the bracket when installed i rough and vibrating environments such as vehicles.

Summary:
❖ Installation only requires two screws.
❖ Aluminum profile, thickness 1,5mm.
❖ Anti-slide, rubber strip, heat resistant.
